Quarterly Snapshot

Author: EasyPour Examples

Summary

This lightweight report demonstrates the EasyPour workflow.

We capture a short narrative, a metrics table, and a simple figure.

Metrics

Metric	Value
Accuracy	92.8%
Latency	1.4 ms
Throughput	2.1k req/s

Table 1. Key model metrics from the latest evaluation.

Figure

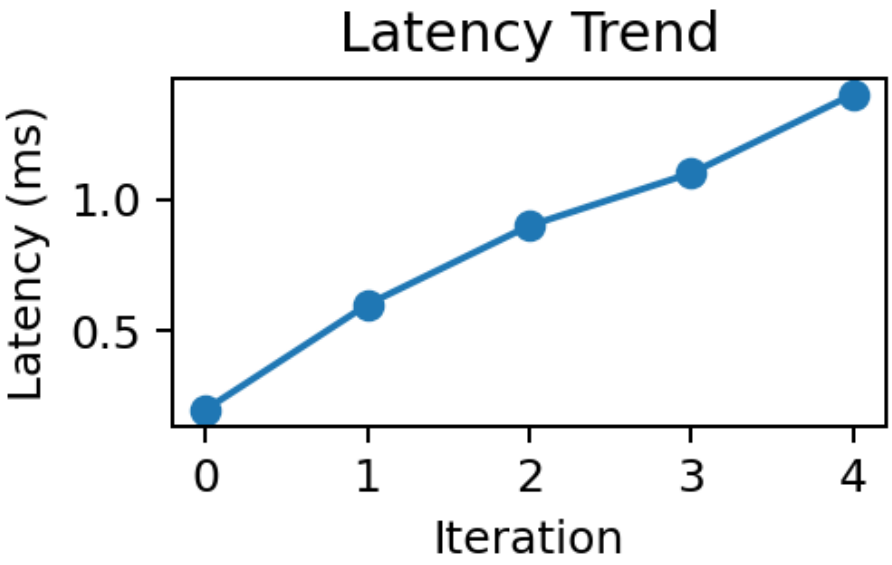

Figure 1. Latency decreases as tuning iterations progress.

Notes

See Table 1 for the full metric snapshot and Figure 1 for the raw latency trend.
